

GLOSSARY

Compatible | The presence of this icon indicates that the Mod**Truss** product is compatible in one foot increments with 12" entertainment tubular truss. The Mod**Truss** hole pattern aligns with Entertainment industry 12" plated tubular truss end plates that have a 6 3/4" square pattern for a 5/8" bolt.

*Mod**Truss** can only certify the load value of the ModTruss product line.

Customizable | The presence of this icon indicates that this product can be altered to customer specifications.

- Additional lead times may apply
- Existing and published engineering data may not apply
- Engineering fees may be assessed

Electrical Hazard | The presence of this icon indicates that there are non-conductive barriers contained within the product that may void a proper grounding plan.

Flammability | The presence of this icon indicates that the product is combustible or loses structural properties in high heat conditions. (Examples: wood, plastics and UHMW)

In Stock | The presence of this icon indicates that this product is typically available and ready to ship or available via will call.

Made To Order | The presence of this icon indicates that this product is manufactured upon order. Please anticipate a longer lead time.

Reusable | The presence of this icon indicates when this product is utilized properly, has extreme longevity and reuse. Absence of this icon typically represents products that are either cut to length, welded or physically altered per use - these conditions prevent predictable wear and may effect capacity.

Serialized & Traceable | The presence of this icon indicates that Mod**Truss** considers it a traceable item. This is to include documentation of manufacturing process, material traceability, coating process and unique serialization.*This report can be supplied at time of purchase for an additional fee.

GLOSSARY

Standard Material | Unless otherwise specified, products will be made from the material listed.

Standard Finishes | Unless otherwise specified, products will be made from standard finish listed. The finish may or may not include a protective coating.

Available Finishes | Alternate finishes or coatings that the product can be ordered in.

Size | Typically referring to the outer dimensions of a product. First listed in imperial inches and second (within parentheses) in metric millimeters. Commonly referenced in height, width and length order.

Weight | The weight of actual product on a certified scale. Please allow fluctuation of +/- 5% weight.

Hole Size | Typical fastener hole size for clearance fit of 5/8" bolt or M18 bolt.

Recommended Hardware | Hardware listed is used in common configurations and typical engineering requirements.

Recommended Tools | Associated tools needed for ease of assembly with recommended hardware.

Associated Products | Most common ModTruss products utilized with this component.
